POSSIBLE ENHANCEMENTS FOR VRSEGE APP STRATEGY #1

The strategy shows interesting results and we can apply several other settings to find out whether we can even improve the results.

- ✗ change AvgNH condition from 32 to 40, 45, 50, or 10,20 ...
- ✗ change primary numbers pattern
- ✗ increase no. of levels from 1 to 2,3,4,5,6,7 ...
- ✗ change no. of spins in level from 8 to 3, 4, 5 or 10, 15 ...
- ✗ change ProgAggress from 0% to 1, 2, 5% ...

YOU can do it as well! Right now!
